REGIONAL EFFICIENCY STANDARDS

On January 1, 2015, new energy efficiency standards took effect establishing different efficiency minimums for air conditioners in each of three regions—North, Southeast and Southwest. Your distributor has a full line of air conditioners to meet your region's minimum requirement. Minimum Air Conditioner Efficiencies:

North Region: 13 SEER
Southeast Region: 14 SEER
Southwest Region: 14 SEER, 12.2 EER (1.5-3.5 tons), 11.7 EER (4-5 tons)

Limited Warranties

* **Parts Limited Warranty:** Standard parts warranty is 5 years. The original purchaser/homeowner may receive an additional 5-year parts warranty by timely registering product online at www.icpsa.com/productregistration, or by completing and mailing the product registration form included with the unit. Registration must be completed within 90 days of installation to qualify. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10 year parts limited warranty. This additional warranty applies to the original purchaser, only for residential applications, and is not transferable. Some restrictions apply. See warranty certificate for complete details.

** **1-Year Unit Replacement Limited Warranty:** If the compressor, condenser coil, or heat exchanger fails due to defect within the first year from the date of original installation of the product, International Comfort Products will, one time only, provide a comparable replacement unit. This warranty applies only to the original purchaser, only for owner-occupied dwellings, and is not transferable. This warranty is a supplement to the standard product limited warranty. Some restrictions apply. See warranty certificate for complete details.
