

Packaged Heating & Cooling Systems

14^{SEER}

Choosing the Right Packaged Unit

Designed for ultimate durability and comfort, Grandaire packaged all-in-one units are available in a variety of combinations. Options include electric heat pump or electric air conditioner. The units remain enclosed outside or on roofs.

Durability & Dependability

We are committed to delivering products that provide long-lasting comfort and efficiency. All Grandaire products must pass rigorous 100% run testing to be cleared for shipment out of the factory.

The Industry's Best Warranty

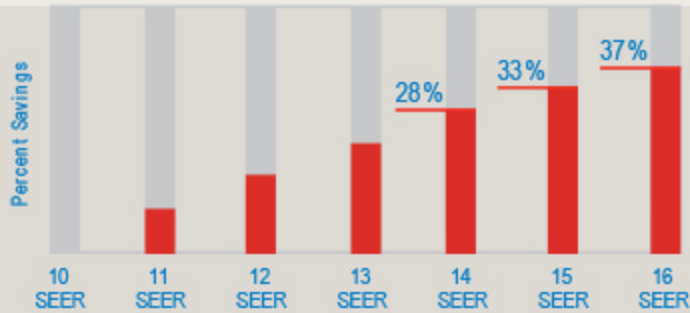

Every Grandaire packaged unit is covered by a 10 year parts and compressor limited warranty*. Also included is a Unit Replacement Warranty†, which provides a replacement unit if the compressor or outdoor coil should fail within the first year.

*10 year warranty requires timely registration and applies to the original homeowner. Visit grandaireac.com for complete details.

† See published warranty at grandaireac.com.

SEER vs. Cooling Cost Savings

Percentage based on national averages at 10 SEER; may vary according to efficiency of current unit and installation.

WJH4 Packaged Heat Pump

- 14 SEER/11.5 EER cooling efficiency
- 8.0 HSPF heating efficiency
